

GENNEX

GENNEX GROUP OF COMPANIES

"Your preferred partner since 2000"

Gennex was founded March 2000. Since then, we have expanded and established our presence in Singapore, Philippines, Thailand and Malaysia. We have achieved this by continuously providing our customers with quality products and services.

As a fast-growing distributor of electronic components, hardware supplies, semiconductor test and equipment and test consumables, Gennex represents several reputable and well-known manufacturers worldwide. In close coordination with our suppliers, we are able to get customers up-to-date on new product development and market trends.

Our competitive edge lies in working closely with customers in providing them superior materials planning and procurement strategies. We were able to attain this because of more than a decade combined experience of our staff in supply chain management. Warehouses strategically located in Singapore, Philippines, Hong Kong and Taiwan allows us fast and cost efficient deliveries to customers.
